A motion was made by John Belokur, seconded by David King, to approve the minutes of the Regular Meeting held on May 19, 2015, as presented. The motion carried unanimously.

Business Manager/Treasurer Sydney Wade presented her report to the Board.
Mrs. Wade stated that included in this month's board packet are February, March and April’s Treasurer’s Reports and Scholarship/Memorial Funds Report; April’s Balance Sheet and Revenue reports for all funds; May’s Appropriation Status Report for all funds, and May’s budget transfers.

Mrs. Wade informed the Board of the Tax Freeze Submission. Candor’s Tax Freeze information was submitted in conjunction with the other TST BOCES component district’s at the end of May by Dryden School District’s Business Official Emily Shipe. Dryden School District is the lead district for the BOCES component districts. Candor’s target savings for 2016-17, 2017-18 and 2018-19 is 1% of the 2014-15 levy, totaling $52,381. The District is achieving this through a savings of $6,630 from the HVAC Energy Performance Contract that was completed in the 2013-14 school year, and a savings of $57,443 realized from reductions in HVAC work that was previously outsourced and is now being completed in-district. The District is expected to save $64,073 annually, which exceeds the minimum Tax Freeze savings requirement of $52,381 by a significant amount.

Mrs. Wade spoke of the ACA Resolutions. There are two resolutions relating to the Affordable Care Act that are being presented for approval. Mrs. Wade defined some terms used to help the Board make sense of the resolutions.

Standard Measurement Period (not to exceed 12 months): the period of time used to determine an employee’s status as either full-time (averaging 30+ hours per week) or part-time.

Administrative Period (not to exceed 90 days): the period of time immediately following the Standard Measurement Period, during which employee work status is determined, coverage is offered to those who are determined to be eligible for health insurance, and those employees are enrolled in coverage.
Stability Period (must be at least as long as the Standard Measurement Period): the period of time immediately following the Administrative Period, during which health insurance is provided to employees who qualify as full-time.

There are different resolutions (and different time periods) for ongoing employees and new variable hour/new part-time/new seasonal employees. The net effect of both resolutions is that the ACA has forced employers to identify employees who qualify for health insurance coverage under its guidelines, and to offer coverage to those employees. Additionally, the ACA requires that health insurance be offered at a certain cost to employees. The ACA also establishes penalties which can be severe for non-compliance.

Mrs. Wade informed the Board that the auditors plan to be in the District the second week of July.

President Raymond Parmarter asked what happens with the Affordable Care Act if congress turns it down. Superintendent Kisloski stated that it essentially goes away.

Jr/Sr High School Principal Wayne Aman presented his report to the Board.

Mr. Aman gave the Board a summary of the College credits earned by the seniors in the CollegeNow concurrent enrollment program through TC3. The Class of 2015 earned a total of 757 college credits, with a high total by one student of 45

- 757 credits x $157 per TC3 credit = $118,849
- 757 credits x $270 per 4 year SUNY school (Cortland) = $204,390

Mr. Aman is pleased to share that 94% of the credits that the students earn through the CollegeNow program have been transferable to the college of the student’s choice. This year, the seniors have earned more credits than any other cohort since Mr. Aman has been principal. Mr. Aman is pleased that so many students choose to take advantage of these opportunities to earn college credit. Mr. Aman would like to thank TC3 and the concurrent enrollment teachers for providing these opportunities to the students. Mr. Aman added that this program certainly saves a lot of money for the families in the Candor community.

Mr. Aman discussed some shared program opportunities that are being considered with Spencer-VanEtten. Mr. Aman stated that a few years ago, he and Missy Jewell, Spencer-VanEtten Senior High School Principal, sat through the merger meetings and discussed how great it would be if the two districts could work together to share some of programs. During course selection this year, each school offered a couple of courses from the other district which would be otherwise unavailable to students. Next year, Candor has at least two students who will be taking an AP US History/AP English Composition course at S-VE, while S-VE has two or three students that will attend Candor to take CISCO or attend the Alternative School. Mr. Aman and Ms. Jewell have met with the transportation directors from both districts to work out logistics regarding busing students. Mr. Aman thinks that it is great that the two districts can work together to offer more opportunities for the students. Mr. Aman added that he is looking forward to looking into potential new opportunities in the future. Mr. Aman commented that Spencer-VanEtten has great administration, teachers and students. Superintendent Jeffrey Kisloski commented that this program is a big deal, and was very hard to put together.

Mr. Aman informed the Board that the Jr/Sr High School will be offering summer school again in July for middle school and high school students. The middle school students will follow the ½ academic/½ work-based education models as they’ve done in the past. High school students will be utilizing PLATO for summer school credit recovery. Spencer-VanEtten has inquired about the possibility of sending a student to Candor’s summer school program, and Mr. Aman has agreed to consider it as an option for them. The summer school program continues to provide valuable opportunities for students. Mr. Aman informed the Board that the number of students who attend summer school has gone down. Mr. Aman added that he appreciates the Board’s continued support.

Mr. Aman stated that the Envirothon Team took 1st in the county and 5th in NYS this year. Mr. Aman offered congratulations to Dr. Jonathan Zisk and the students, adding that their hard work paid off.
Mr. Aman thanked the Board for their continued support throughout the school year and is looking forward to seeing them at the Commencement Ceremony on June 27th.

Mr. Aman informed the Board of the Alumni Accomplishments display in the front entry of the school. Mr. Aman thanked Cathy Doane for the bio for Rebecca Halstead that is currently on display. Mr. Aman added that he would like to be able to add more alumni to the wall as time goes on. He feels that it will show the students what they can do.

Elementary Principal Kimberleigh Nichols presented her report to the Board.

Mrs. Nichols updated the Board on the 2015-2016 placements. Grade levels have begun working on student placement lists for next year. Mrs. Nichols suggested he visit for Field Day and he was more than happy to.

Mrs. Nichols updated the Board on the ELA and Math Curriculum. During the end-of-year congruence meetings, the Elementary discussed recommendations for next year in regard to continuing the ELA and math modules. K-3 will continue with their second year of the Core Knowledge ELA curriculum. Grades 4-6 will continue to adapt state ELA modules with their district curriculum. Grades K-6 will continue to use the NYS math modules. Mrs. Nichols commended the Elementary faculty for their diligence, flexibility and professionalism in learning and implementing the new programs. Mrs. Nichols added that these meetings give the teams a time to stop and reflect on the past year, to determine what worked and what did not, etc.

Mrs. Nichols thanked the Board for allowing her the opportunity to serve such a wonderful school district and community. She stated that she appreciates the Board of Education’s and Superintendent Kisloski’s leadership. She thanked the Board for caring about the children, the staff and the community. She stated that she is looking forward to next year, as the District implements new programs and opportunities for the children.

Director of Special Education Holly Carling summarized her report to the Board.

Mrs. Carling’s written report to the Board listed the type of meetings held for the past month, how many, and how many of the meetings had parent presence.

Mrs. Carling thanked the Blessed Trinity Parish and the Saint Patrick Parish for their donations to the 6:1:1 program. She stated that for the last several years, they have sent a check for $200 to the 6:1:1 special class to help fund the gymnastics program. She added that the Special Education department is incredibly grateful that they continue to think of them each year.

Mrs. Carling informed the Board that she is already aware of students enrolling for the summer and 2015-2016 school year.

Mrs. Carling congratulated the 2015 graduates. She stated that the District is excited to have nine CSE students and one 504 student graduating this year.

Technology Integration Coordinator Matt Gelder presented his report to the Board.

Mr. Gelder updated the Board on the Summer Curriculum Work/Technology Training. He and Mrs. Nichols have been busy planning the summer curriculum training. The goal is to weave technology tools and project based learning together to help teachers leverage technology to re-imagine teaching and learning. Mr. Gelder stated that they will be introducing the following tools: Google Slides, Google Forms, Google Websites, Chromebook Introduction, MoveNote, Kidblog, Screencastify, Animoto, Youtube, WeVideo, Padlet, Coggle, Google Hangouts, Google Extensions, Kahoot, and Edpuzzle. The program will begin the first week of July.

Mr. Gelder spoke of the Inventor’s Club. He stated that the students finished their water bottle rocket projects and had a great time pumping them up and blasting them off. His end of the year schedule prevented him from working with them as much as he would have liked, but they did get a chance to explore Minecraft Edu.
Mr. Gelder feels that this program can create opportunities to engage students in a safe online community where they are working collaboratively to solve problems and dive into some deeper learning. Mr. Gelder stated that he sees its potential for use in 4-6th grade next year and he will be looking for a teacher to pilot this next year. Mr. Gelder stated that he had a great time with the 6th graders this year. He would like to thank Adam Young, Amy Parillo, and Jessica Weeks for helping to coordinate this club. Mr. Gelder informed the Board of the Dynamic Influence presentation. Robert Hackenson presented a variety of messages about social media to the high school on John Hancock day on June 10th. The Elementary students came over to see the presentation as well. Mr. Gelder felt that his message was well received by the high school students. Mr. Gelder provided the site for the program - http://www.dynamicinfluence.com/. Mr. Gelder added that he appreciates Craig Bennett and Wayne Aman for making this happen. Mr. Gelder spoke of the recent Technology Survey. He would like to thank Neil Farley for helping to roll out a technology survey to the high school student. Mr. Gelder is also collecting survey data from teachers about their technology use and needs. This data will be used by the technology committee in each of the buildings to determine priorities and goals for next year. Mr. Gelder provided the student technology survey for the Board.

Director of Operations Bern Smith presented his report to the Board. Mr. Smith stated that Daren Jensen and Greg Nichols are finishing their end of the year bus trips. Mr. Smith informed the Board that he has asked Anne Macera to come to the next Board meeting and update the Board on the HVAC program. She will have a handout for each, and speak about the system progress. The Board members stated that they would like to have Ms. Macera come to the meeting.

Network Administrator’s Log for May 2015 was submitted.

Superintendent Jeffrey Kisloski presented his report to the Board. Mr. Kisloski provided a report and recommendation from Steve Frye, Athletic Director, regarding cheerleading. He stated that this has been an interesting issue that has evolved throughout the year, but the key factor has been the determination from the current coach to pursue certification. Mr. Kisloski added that a resolution is not required, just direction from Mr. Frye. Mr. Kisloski stated that in one or two situations next year, the District is looking at adding coaching positions for various reasons. This has never been an issue before and it will not cause problems with the athletic budget, but he wanted to make the Board aware of these additional appointments. Mr. Kisloski informed the Board that he received a call from a gentleman in Rochester that graduated from Candor in 1953. He told Mr. Kisloski that most schools in his area have an Athletic Hall of Fame for the school district and thought that Candor should have one as well. They discussed some of the current forms of recognition for athletes and they agreed that Mr. Kisloski would make the Board of Education aware of his thoughts. Mr. Kisloski added that this can be discussed further at the July or August meeting, it is not time sensitive. Mr. Kisloski provided the Board with a complete copy of the APP (Athletic Placement Process) booklet. Steve Frye has relayed to him that every school he is aware of, is going to be utilizing the new process in place of the outdated selective classification. Mr. Kisloski and the Board agreed that the July Re-organizational meeting is set for July 15th.
